JOB VACANCY: Jr .NET Developer

ABOUT US

Founded in 2004, Visual Antidote is a dynamic, innovative and growing IT company located in the heart of Toronto's Yorkville region. We are an IT consulting services company that works on dozens of projects – small and large each year focusing on .NET technologies. We specialize in two industry-leading technology platforms making commercial products meet our client needs while working within a complex application environment.

Our company culture is our strongest pillar. We take great pride in creating a safe & positive work environment that focuses on the strengths of each team member. We believe in team spirit and each team member is responsible for bringing a positive attitude that is rooted in learning from failures and past experiences with a strong focus on the ability to constantly learn.

We actively encourage on-going learning and professional development through our monthly “innoVAtions” sessions, bi-weekly lunch and learn sessions combined with company supported professional development. Come grow with us!

Who do we aspire to be?

Our chosen technology platforms are evolving in new and challenging directions and we are working to keep pace. Between cloud-based technologies, an increased emphasis on front-end requirements or the latest MVC-based CMS systems we work to maintain a position of leadership in our chosen space while providing high-quality consulting services with integrity and passion.

About the Jr. .NET Developer position:

We are looking for a dynamic, passionate, driven, detail-oriented and talented **.NET Developer** to work with our consulting team in 2019. The ideal candidate will have a passion for developing first class web-based solutions, meeting targets, and working both independently and as part of a dynamic team.

As the “junior” you will be working closely with experienced members of our development team and applying your skills in both front-end and back-end development work. We expect to mentor you and develop your talents and show you how to apply them to real-world problems and work with evolving customer needs and requirements.

We are a growing company and each resource is expected to wear many hats - our ideal candidate will have the resilience & ability to adapt to the needs of rapidly changing company.

ABOUT YOU
